

Eco Committee

2016

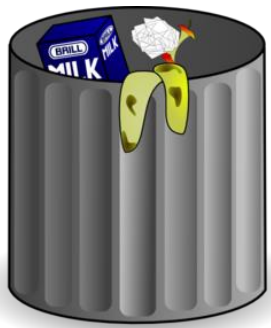

ECO FLAG

We have to keep it standing as we can lose it if we aren't eco friendly enough!

As soon as we stop being the eco standard it has to come down.

To Do:

- More classes going out for lessons in the eco garden.
- Run 'Waste Free Wednesdays'!
- Start a competition with all of the classes in the school.
- St. Brides Eco Newsletter.
- Make a new name for the eco committee.
- Have Eco Spies!

Waste Free Wednesdays

Waste Free Wednesdays is a activity that will be on Wednesday as the name suggests. We are going to organize that everybody in the school, particularly the Ashleigh side are going to make sure there is no rubbish in our bins on Wednesday. The class with the least amount of litter will receive a certificate, a trophy and a great mentioning in the next assembly.

Eco Spies

The Eco Spies are going to be chosen to make sure every light is off when it needs to be, every computer is off when no one is using it and that waste is taken home or recycled into scrap paper for other children to doodle on.

The Eco Spies also help if the Waste Free Wednesday competition is a draw they can say who they saw was very ecological.

WE NEED A NAME!

We have been thinking of a name for the Eco Committee but we can't come up with one!

What should we be called?

It must be short, catchy and fun because Eco Warriors was used last year!

Hello
my name is

Eco Garden

The Eco Garden is getting on very well but it needs some popularity, so to fix that we are going to encourage that more lessons should be taken outside as it clears your mind, calms you down and helps you to concentrate.

Ideas

If you have any ideas for the eco committee please tell the monitor or put it in the eco ideas box or suggestion box.

The eco ideas box/suggestion box is a box where everyone can put in their own ideas and we will definitely share them with the committee every fortnight.

Thank
you!
