

A day of Chess at Methody

On Saturday 14 of May, I went to a chess tournament in Methodist College. There were six rounds of chess. And I played in the under 7 section, some of my friends were there too. There were also six rounds of battle chess, and there were problem solving sheets. Finally it was time for the prize giving and there were rosettes, certificates and trophies. I got a certificate for the problem solving, a trophy for the games, another certificate and a rosette. My favourite part of the tournament was when I got a trophy. I was very very happy that day.
